

7.26.10

Meeting Minutes:

Games camp presentation practice Wednesday at 7—presentation run through.

Project overview:

Arsenic: ARsR ArsB pArs everything cloned out except ArsB. Going to do gradient with DMSO tomorrow. ArsR on plasmid. Waiting on primers with *ecoRI* site for pArsR before working it into plasmid.

Gold: GolB GoIS GoIT GesABC everything cloned out except GesABC. GoIS on plasmid

Collection: LamB pRpoS both cloned out, not on plasmids yet. waiting on primers with *ecoRI* site for pRpoS before working it into plasmid. should probably order primers for LamB with *EcoRI*.

Small RNA: micF ompF micA ompA eGFP GadY GadX Hfq all cloned out and on plasmids.

Dippin' Dots: Wednesday, finish off what's left on Thursday.

We should start looking into plane tickets etc.
