

9.12.10

meeting minutes

Let's get all parts done by the end of September. Then we can characterize in October and send it in.

General meetings September 29th, 30th. 7:30-8:30.

Fundraising:

No more dippin' dots since we're out of liquid nitrogen.

Pysch studies: if you have the time, do it.

Barbeque on the quad?

Volleyball tournament on the 25th, Meagan will send flier again. ADVERTISE! Sonam might be a good contact for prizes.

We're a part of engineering council! We would like to apply for funding from EC, matt will be in charge of this. Hopefully bob can help with a sample budget

BioE 120: We'll talk to them on Oct. 4th. Similar powerpoint to the general meeting, Meagan, Colin and palak will put it together. Anyone interested in talking should plan on staying an extra half hour after the team meeting that weekend to practice.

MCB290 research workshop: we can submit a slide and we'll have a table during the break to talk to people.

Meeting with advisors this Wednesday 4:00.

Project:

Project Abstract—Francis

Poster—Francis, Amanda.

Track Selection—decoder is more logic, ars/gold more bio-remediation. We need to pick one!
