

4/11/10 meeting minutes

Meeting with advisors to present project proposals Friday 5:00-6:30. Possibly a professional picture 4:45 for the brochure.

Francis went over project proposal research. See the googledoc for comments.

Top three projects to present:

Thermoregulator

Arsenic/lead detector

Engineering Posttranscriptional regulation in prokaryotes

Additional research throughout the week on these projects.

Thursday undergrad research symposium: 130-245 pine lounge in the union

Igb fellows symposium Friday: 330-445
