

Meeting Minutes
Advisors Meeting
6.11.10

Powerpoint file attached to email.

Orpheum children's science museum—sometime in august possibly. Come through and see the lab.
Maybe do something like extracting DNA from strawberries.

Haven't heard anything else from parkland yet. They'd come film us in the lab and we'd give a seminar at parkland.

Maybe something at uni high or other private schools during the beginning of the semester.

Points to address for games camp:

Difference between synthetic biology and genetic engineering.

What's the point of synthetic biology?
