iGEM 2010 survey was created by MSc Justyna M. Lesiak from the iGEM 2010 Warsaw Team with help of dr. Izabela Wagner [visiting scholar, HARVARD University, Department of the History of Science 1, Oxford st. 1 Oxford St. Cambridge, MA 02138 USA].

The survey was published from September 2010 till October 2010 and was composed of 30 questions, including one of multiple choice. As we established, an average person needs 15 minutes to answer all the questions.

All of the 2010 iGEM participants were encouraged to answer by receiving an invitation via e-mail. We sent information about the survey three times, every two weeks. 356 people responded.
