

<p>iGEM2013 – Microbiology – BMB – SDU</p>	
<p>Project type: System with pUC57</p> <p>Project title:</p> <p>Sub project:</p>	<p>Creation date: 13.09.12</p> <p>Written by: SF</p> <p>Performed by: SF</p>

1. SOPs in use

SOP0009_TSB_transformation

2. Purpose

A safety-net to get the system cloned together although not in the iGEM plasmids

3. Overview

[illegible]

4. Materials required

Materials in use

[illegible]

5. Other comments

6. Experiment history

[illegible]

7. Sample specification

Sample name	Sample content	From	Used for / Saved where

8. Remarks on setup

9. Results and conclusions

10. Appendices
