

# Human Practices

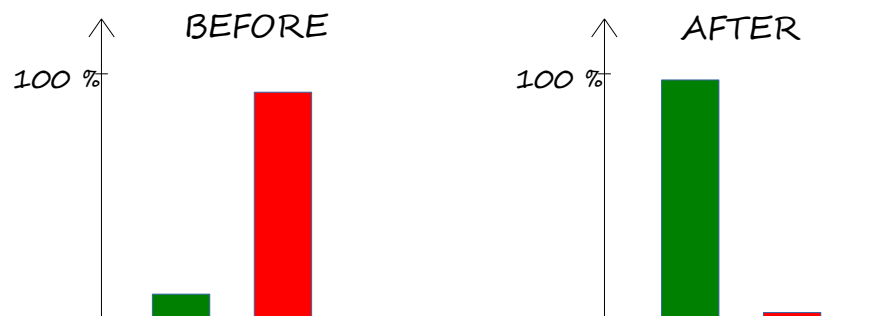

Highschool students visit

- Objective : Redefine « GMO » in peoples' mind
- Pathway : « 1 day with EPFL iGEM team »

- How?
  - Talk about the iGEM competition & synthetic biology
  - Show that GMOs can be part of our daily life with our BIOPAD
  - Make people think about it!

- Results :

- Conclusion : The best way to make people aware of the meaning of « GMO » is to explain the concepts with real examples and to make them think about it concretely
