

NEGEM MEETUP #1
June 21, 2017

WELCOME TO NEGEM 2017!

The New England iGEM (NEGEM) Meetups have been hosted by Boston University iGEM teams over the past four years. The first meetup was held in September of 2012, where four teams gathered for an afternoon of presentations to prepare for the 2012 iGEM Regional Jamboree in Pittsburgh. As the meeting was incredibly valuable in getting the teams ready for the competition, the BU team decided to turn NEGEM into a tradition. Over the past four years, NEGEM has expanded to include more summer meetups, more teams, direct interaction with iGEM HQ, and team brainstorming and discussion sessions.

This year, BU and MIT have teamed up to co-host this year's NEGEM meetups! At our first meetup today, we are excited to have 7 iGEM teams in attendance:

- Boston University – Hardware Team
- Boston University – Wetlab Team
- Harvard University
- Massachusetts Institute of Technology
- Northeastern University
- Tufts University
- Worcester Polytechnic Institute

Schedule

- 10:00 AM: Opening Remarks
- 10:10 AM: iGEM HQ Introduction
- 10:20 AM: Benchling Demo
