## **Alejandro**

### **cell culture**

- medium exchange
  - medium over the cells in the 24-well plate for the His-purification test (600/800 µL) was exchanged
  - time: 11:15 h

### **Cell culture :**

- 120 from the 160µL medium were exchanged in the 96 well plate
- 1.5 from the 2mL medium were exchanged in the 6 well plate
- notes :
  - the medium was already yellow on both plates
  - there were quite some floating dead cells in the 6 well plate. Not so much in the 96 well plate.
