

## Meeting with Dr John Mitchell

Who: Eleonora, Gordian, Gregor, Dr Mitchell (reader in chemistry, with focus on informatics and computational chemistry)

### Description:

- Dr Mitchell unfortunately does not know how to decompress and access dsn6 files
- We still had an excellent chat though
- He forwarded us the information of David Cordes and Alex Slawin (two crystallographers)
- He suggested using B Factors to discriminate isopeptide candidates
- He also did not know how to open the old electron density files
