<u>Joshi</u>

cell culture

• splitting: Joshi splitter 4 new T75 flasks from his flask, this was passage 31

Colony PCR for V33

- 12 clones -> PCR, agarose gel for 30 minutes, 120 V
- under blue light, insert visible for all 12 clones: particularly strong for clones 1, 2, 6
- prepare overnight cultures for minis for 1, 2, 6
