

Team meeting

Who: Whole Team

Where: Library room 4

Description:

People to send signatures to Anne by tonight

Need to come up with a 200-word project description by tonight

Team discussed the potential projects

Questions about the feasibility of the nerve agent project

G, Maggi and James to email members of staff who are experts in each of the project fields to ask about the feasibility and utility of the projects

Discussed BBSRC funding

Application for another round of funding (for the wet lab) due in March

Nuffield funding to be discussed with Anne

Morganne to discuss with Helder/others about potential supervisors

To look into finding a mathematical biology supervisor

Monoclonal antibodies project – may be difficult to find something to model

James to send never agents project description to Morganne by tomorrow

Morganne to write up the monoclonal antibodies project for the BBSRC funding

Enterprising award - potentially £250 for wet lab

Retreat 8-10th March

Project to start on the 3rd of June for 10 weeks
