

09. (September) 2019

Project: iGEM_Munich2019 Shared Project

Authors: Theresa Keil

SATURDAY, 14/9/2019

- Finished RNA isolation out of exosome SN and cell.
- Discard exosome isolation kit from VLP samples after centrifugation (1h, 4°C, 12000 x g) and resuspend in 100 µl PBS
- add 10 µl DNaseI and 20 µl DNaseI buffer and incubate for 1h at 37°C;
- add 500 µl TRIzol and store in 4°C till Monday
