

CONSORTIUM MEETING

IBISBA invites iGEM

We are pleased to announce that, as a prelude to IBISBA's 6-month consortium meeting, three iGEM teams will tell us about their projects. The teams are from Helsinki (Finland), Toulouse (France), and Wageningen (The Netherlands).

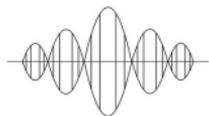

Each team will have 10 min to tell us about their project and 10 min to answer questions.

We hope that you will join this meeting and show support for the younger members of our scientific community. This is also a great opportunity to think about how iBISBA can support iGEM teams.

July 8, 9-10 am CEST
