Favourite food:

Seafood

Residence/Origin:

He was born in the Caribbean Sea where he lived inside of different fish species.

Superpower:

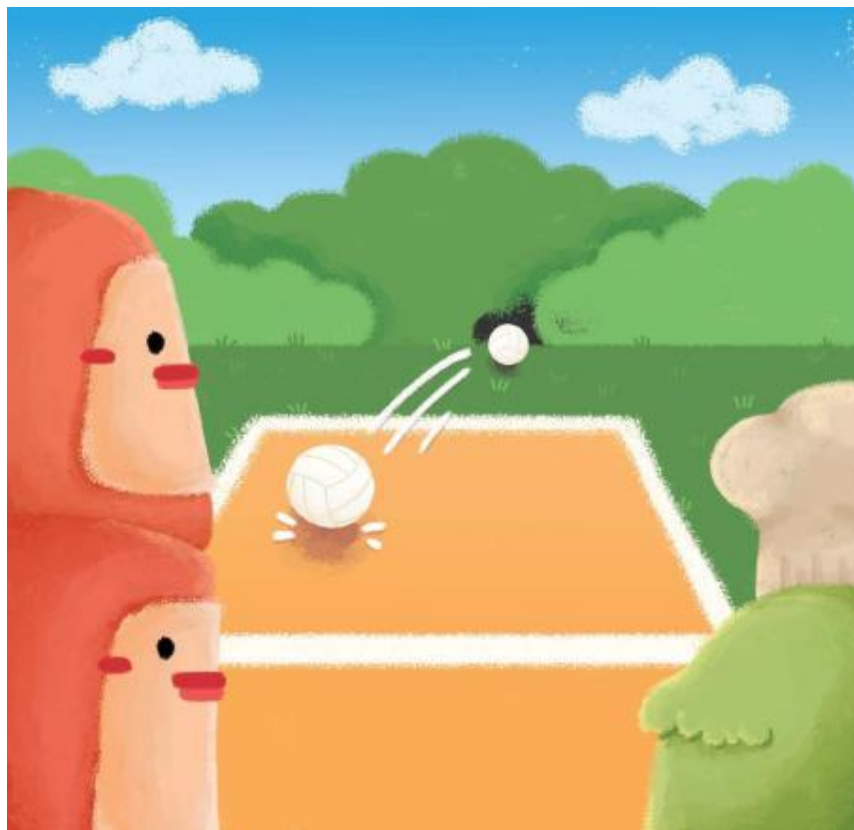

Mark is bioluminescent, he can shine in the dark!

Chapter 1: Bioluminescent Mark

The farmer has just left the farm and the crew of microorganisms are in charge. The fun is about to begin.

Mark, Armin and Musoke
are playing volleyball.

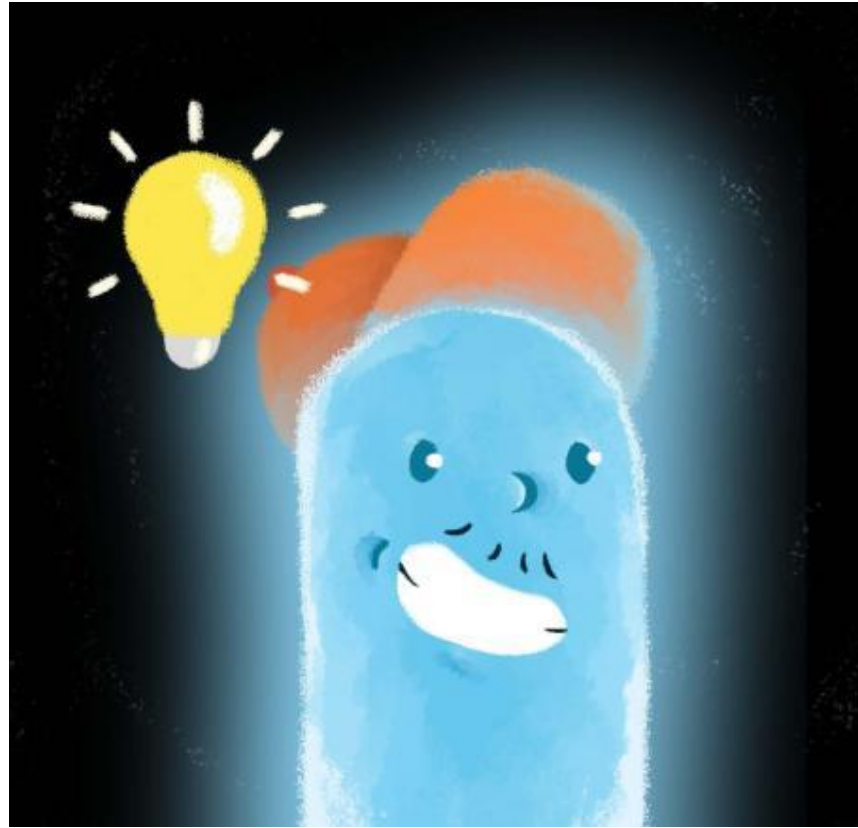

Suddenly, the ball gets lost in a hole between the bushes.

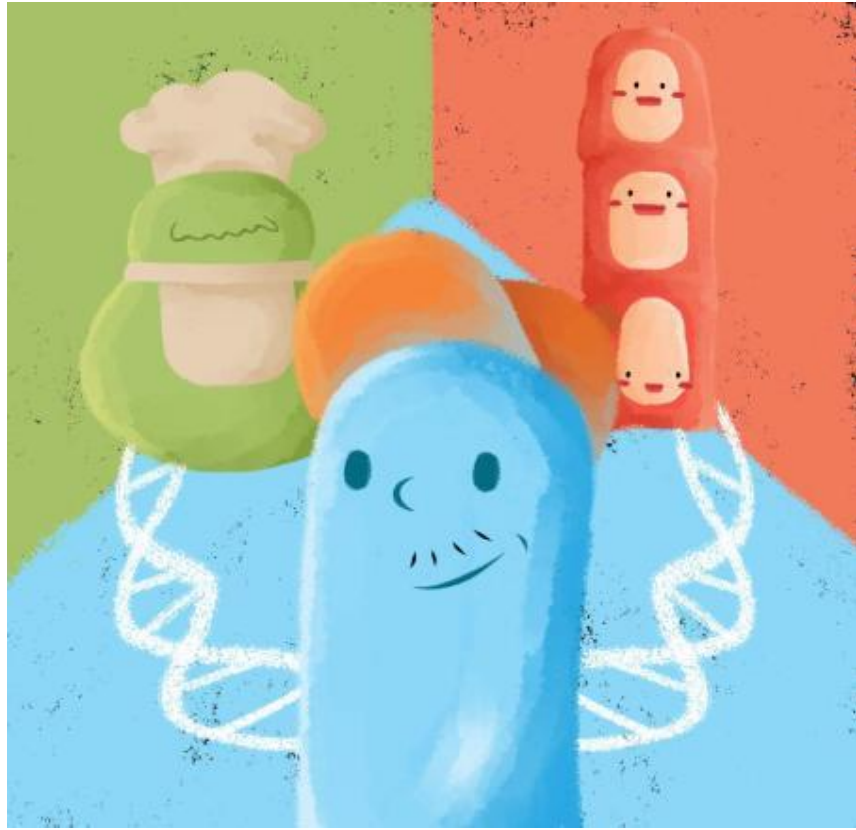

It looks dark and scary...

Mark can only give off a bit of light, but it is not enough. Is it game over?

He has an idea!

Mark can transfer his superpower of glowing in the dark to his friends.

Now they can all look for
the ball together!

Ah there it is!

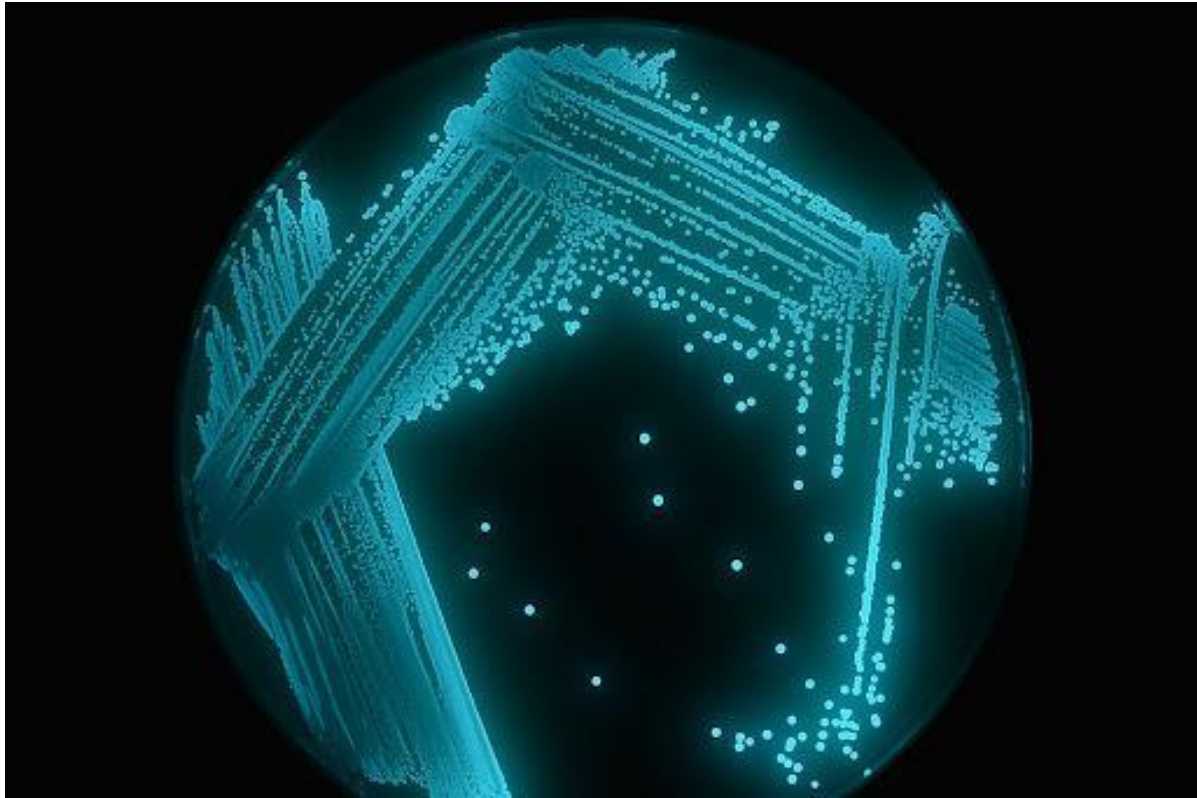

Bioluminescence in nature
