

## SYNBYTE 2021

Team iGEM IISc Bangalore is organizing a two-day synthetic biology symposium, with speakers from across the globe. The current research being done in the field of synthetic biology will be discussed in this symposium. The symposium is open to all and doesn't need any registration.

Feel free to join us on 21st and 22nd August in this exciting series of talks! Also, please share this with your peers and help us spread the word.

Date	Time (IST: UTC+5:30)	Speaker
