

Questions for Manufacturer

1.

Q: Have you ever tried to design wrapping paper that can reduce the environmental impact of chewed gum more effectively?

A: To date, Fertin pharma has not been the owner of the brands. We are a contract manufacturer. So the brand owner decides on the packaging. Secondly, in pharma it is not easy to make new environmental friendly packaging because we must be sure of the safety and 100% content of the ingredients in the medication first and foremost. Consumer safety is vital in pharma.

2.

Q: Have you ever wrapped edible beads in your gum? If so, how do you wrap it in the gum?

A: I can/will not answer this question. Sorry.

3.

Q: What do you think is the most environmentally friendly way to dispose chewing gum?

A: See question 1. In pharma, you have only few options. You can not choose packaging like you can in confectionery gum.

4.

Q: How much gum do you produce approximately in a year?

A: Aprox. 3 billion/year
